

**Come & Meet
us on
SAT 26th APRIL
10am to 1pm**

Men in Sheds

Our fabulous facility provides opportunities for the construction of wooden, mechanical & electronic items, as well as a social interaction and hobby space. Many of our members have now retired or semi-retired and now wish to pursue their own interests, use their time productively and share their experience with other members and the local community.

Visitors will be able to tour all parts of the building and see activities including woodwork, metalwork and 3D printing.

Members can also give advice on the repair/renovation of any personal items but will be unable to repair on the day.

Please note that Children should be supervised at all times and due to the noise from machinery, the building is unsuitable for animals.

OPEN DAY *at* Brampton Men's Shed

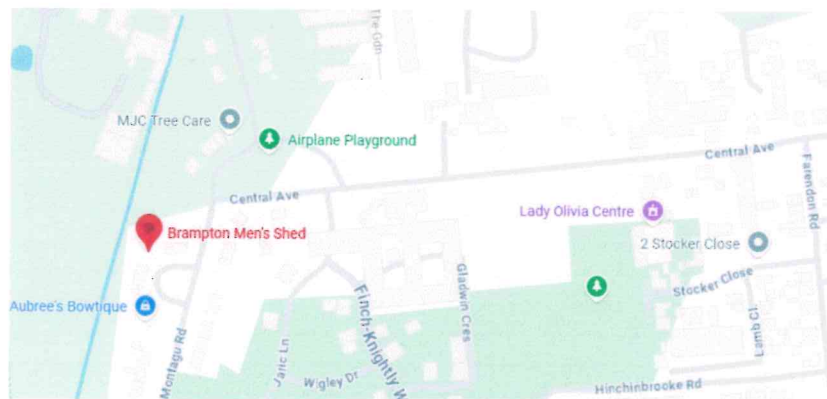

**No commitment to join – just come and meet
our friendly team!**

Our members can work on their own projects from small to large, such as small wooden boxes to house boules to large outdoor planters.

Alternatively, members can work together on communal projects such as building nesting boxes for dormice. There is also some restoration and repair work of electrical items, garden tools and bicycles to support sustainability in the community

Some of our products, surplus tools and materials will be available for sale.

Find us here: 4a Montague Road, PE28 4QG

Contact: ✉ bramptonshed@gmail.com

***We are usually open Monday & Saturday mornings and
Thursday afternoons. Membership is just £30 per year***
