
VILLAGE FACILITIES REPORT- BRAMPTON PARISH COUNCIL

APRIL 2021.

For many years the skate park has been the 'jewel in the crown' of Brampton's many facilities. Recently, we have been poised to add the Lady Olivia Centre to our portfolio, expecting its spectacular features to take it straight to 'number one'. When we finally accept the keys the star status of the L.O.C. may be threatened by the all new skate park !

This tongue in cheek competition serves to highlight how blessed we are in Brampton.

The development of Brampton Park has brought welcome new facilities and also boosted funding to underpin the enhancement of existing. Along with the skate park, the Memorial Centre, playing fields and play areas have all benefitted from the fallow year and enjoyed redecoration and refurb.

The Community Centre continues to challenge us with its failing 19th century fabric but, as the home of The Library and Befrienders, will remain an important part of the village.

As always, suggestions for change and improvement to our buildings and open spaces are welcome.

John Childs –
Chairman
